

## QGIS Application - Bug report #14171

### "save as" raster as VRT adds a useless ".tif" to folder output name, output vrt file and output tiles

2016-01-26 05:32 AM - Ralf Deuerling

<b>Status:</b> Closed	
<b>Priority:</b> Severe/Regression	
<b>Assignee:</b>	
<b>Category:</b> Rasters	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b>	<b>Easy fix?:</b> No

<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 22173
<b>Description</b>	
<b>New description:</b>	
see subject	
All version > 2.6.* affected.	
Moreover the output VRT files gives an error when the option "add saved file to map" is left checked (but the vrt file loads ok if manually added).	
<b>Old description:</b>	
A few weeks/months ago I could save a WMS to separate tiles in a folder by right clicking the wms in qgis-layers and choosing "save as". I've done that several times.	
If I try to save a WMS now, the dialog "save as" asks me for a folder just like before. But if I confirm the desired folder, it looks like the dialog box wants to handle the folder as a file and adds the ".tif" behind the foldername. If I confirm the dialog box, the popup appears, that tells me that its downloading the tile 1/x. The downloader also creates a folder with the name "foldername"+"."tif" with an empty geotif in it. But in the same time the popup with the download-progress appears, qgis tells me, that there is an error. It tells me that the created "foldername"+"."tif" is not a supported raster source.	
I could reproduce the bug on different systems and with the qgis versions 2.12 to 2.12.3 and current 2.8.6 (LTR) and with several wms sources.

#### History

##### #1 - 2016-02-05 03:39 AM - Giovanni Manghi

- Target version set to Version 2.14
- Affected QGIS version changed from 2.12.2 to master
- Operating System deleted (Windows 7 64bit)
- Subject changed from Saving a WMS doesn't work to "save as" raster as VRT adds a useless ".tif" to folder output name, output vrt file and output tiles
- Priority changed from Normal to Severe/Regression
- Category changed from Web Services clients/WMS to Rasters

**#2 - 2016-06-22 02:13 AM - Jürgen Fischer**

- Status changed from Open to Closed

Fixed in changeset commit:"d69ec2e8bb1c3a4b036f063454f27dff60c4e643".
