

QGIS Application - Bug report #14177

rules based labeling not saved

2016-01-27 04:51 AM - Kurt Ludikovsky

Status: Closed	
Priority: Normal	
Assignee: Martin Dobias	
Category: Unknown	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 22179
Description	
In rules based labeling of a vector layer the position of the layer is not saved when it is referred to a attribute field.	
Steps to reproduce:	
1. create a layer with some points having name, type, position	
2. create a rule that uses the position attribute to set the position of the label (0-7)	
3. save the project	
4. reload the proejct	
5. the label position reference to the position field will be lost an having a fixed value (7)	
Version : 2.12.3 64bit	
Win 7/64
