

QGIS Application - Bug report #14198

French projections

2016-01-30 03:26 AM - Zoran Čučković

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	2.12.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 22200
Description		
<p>Hello,</p> <p>I have what seems to be the old problem with French projections on 2.12.3 version for 64 bit Windows. See #7941 (Strangely, everything was fine on 2.8 version for me!).</p> <p>Older French maps in .png format and in Lambert II system (IGNF : LAMBE or LAMB2C) do not reproject 'on the fly' : I get a white screen. When I try to zoom 1:1 it throws an exception :</p> <pre>forward transform of (0.124645, 0.366976) PROJ.4: [...] Error: failed to load datum shift file</pre> <p>A sample raster is in the attachment.</p>
