

QGIS Application - Feature request #14268

Automatically create PostgreSQL test database on "make check"

2016-02-10 06:01 AM - Sandro Santilli

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Tests Suite	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	No	Copied to github as #: 22263
Description		
<p>Right now it takes configuring the build with -DENABLE_PGTEST=ON and manually creating and initializing a test database, for postgresql/postgis tests to run.</p> <p>This ticket is to request enhancing the code so that the database is created and initialized automatically as part of running the tests that make use of it. Additionally, ENABLE_PGTEST should be automatically set to ON whenever it is found to be possible to create and initialize such database and ENABLE_TESTS is set to ON.</p>
