

# QGIS Application - Bug report #14345

## Spatialite - No need for 'Length' field in DB Manager?

2016-02-20 09:01 AM - R. R.

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Data Provider/Spatialite	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b>	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> end of life
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 22331
<b>Description</b>	
The QGIS help says 'Width and precision are irrelevant in a Spatialite database so you do not have to specify these.'. So it seems there is no need for the 'Length' field in the DB Manager when adding a column to a Spatialite layer ('Table/Edit table/Add column').	

### History

#### #1 - 2017-05-01 01:06 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

#### #2 - 2019-03-09 04:09 PM - Giovanni Manghi

- Resolution set to end of life
- Status changed from Open to Closed

### End of life notice: QGIS 2.18 LTR
