QGIS Application - Bug report #14415
legend items window is so small in QGIS 2.14

2016-03-03 12:12 PM - Claas Leiner

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Unknown			
Affected QGIS version:	2.14.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	22396	

Description

In Print Composer the legend items window is so small that only a tiny part of the legend content is visible. The legend design is so difficult!

Look at the Screenshot

Best wishes

Claas

- Resolution set to fixed/implemented

Coincidentally fixed a day ago in commit:e695fbb!

#2 - 2016-03-03 01:17 PM - Claas Leiner

Thanks!

#3 - 2016-03-04 07:59 AM - Harrissou Santanna

And more globally, it may be nice to have this widget resizable (see #14155)

#4 - 2016-03-26 04:18 AM - Claas Leiner

- Status changed from Closed to Reopened

- Target version set to Version 2.14

The problem is in QGIS 2.14.1 continued. The LegendItems window is narrow when the subtabs fonts, Columns, Spacing etc. are expanded. However, when the subtabs frame is expanded, the LegendItems are open as large windows.

Best wishes, Claas

It was only fixed in master. Backported to 2.14 in commit:5dc9551. Please check the next nightly of the release branch.
