QGIS Application - Bug report #14422
Classify button for a categorised style on a text field (using random colours) does nothing
2016-03-04 07:02 AM - Lucy Arnold

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Unknown			
Affected QGIS version:	2.14.0		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	not reproducable
Crashes QGIS or corrupts data:			**Copied to github as #:**	22402

Description

In both Lyon and Essen when you click on the Classify button for a categorised style on a text field (using random colours) does nothing. You can get round it if you know the exact values and all the values but for a large dataset with many unique values this is not a viable option. Thanks in advance.

History

- Status changed from Open to Feedback

Can you attach a self contained project which demonstrates this? I'm unable to reproduce

#2 - 2016-03-06 04:55 AM - Anita Graser

Cannot reproduce, which data source do you use?

#3 - 2016-03-06 07:54 AM - Anita Graser

- Subject changed from Style Categorized Classify to Classify button for a categorised style on a text field (using random colours) does nothing

#4 - 2016-04-09 09:39 AM - Giovanni Manghi

- Resolution set to not reproducable

- Status changed from Feedback to Closed

closing for lack of feedback, please reopen if necessary.
