History

#1 - 2016-04-09 09:35 AM - Giovanni Manghi

- Target version deleted (Future Release - Lower Priority)
- Status changed from Open to Feedback

This is part of a larger missing feature in Processing, see #11616

#2 - 2016-05-23 09:36 AM - Giovanni Manghi

- Status changed from Feedback to Closed
- Resolution set to duplicate

duplicate of #11616

#3 - 2016-10-10 05:59 AM - gcarrillo -

- *Target version set to Version 2.18*
- *Status changed from Closed to Reopened*
- *Resolution deleted (duplicate)*

While #11616 could enhance Processing as a whole, this issue (#14430) can be addressed separately.
That is, for GDAL/OGR Processing algorithms to work with memory layers, we don't need #11616.

I'm reopening this issue because I'm about to propose a fix.
