

QGIS Application - Feature request #14437

Add tools to organize/tag plugins

2016-03-07 11:44 AM - Andrew McAninch

Status:	Open	Resolution: Copied to github as #: 22416
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>With the hundreds of plugins available I think adding some tools to manage plugins would be really useful. There are a good number of plugins that are regional or are not at all relevant to the sort of work I do in a GIS and being able to tag these as hidden would be helpful for reducing the number of plugins I need to sort through when I'm searching for a tool. I also will see new plugins that I don't have an immediate use for but I know will be useful in the future, and I'd like a way to be able to tag these too. I suppose I'm looking for the ability to manage/view different lists/sets of plugins.</p>
