Description

Hi,

the following message appears when trying to export a SHAPE layer to mapfile:

Apparently the dot in the path breaks the functionality (the files are present).

seems like a packaging issue. works nicely with the msvc build and a local python install.

#2 - 2008-12-15 01:49 AM - Marco Pasetti -

I made a simple test: I exported a shp file and it worked fine.

I asked to Leo (Lami) to test it too.

I would wait for his tests before to decide if it is a real package bug.

- *Resolution set to worksforme*

- *Status changed from Open to Closed*

Leo reported no errors too.

I'm closing the ticket as works for me.

Mhh, I am suprised that I then see a ghost error... well, ok. I hope for the next package then.
