Description		
<p>The icon used in the Attribute table "switch to form view" used to be equal to the "open Feature Form" button on Identify Results, mActionPropertyItem.png</p> <p>A new SVG file was added "mActionPropertyItem.svg", and used in the Identify Results Dialog. I wonder if we should not use the same for the attribute table.</p> <p>The icon was added in commit:7b94fc5</p>
