

QGIS Application - Bug report #14542

Test of query of a postgresql layer always show the total count of table rows

2016-03-21 02:29 AM - Siegfried Blank

Status:	Closed	
Priority:	Normal	
Assignee:	Jürgen Fischer	
Category:	Data Provider/PostGIS	
Affected QGIS version:	2.14.0	Regression?: No
Operating System:	Win	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 22515
Description		
Which query is also made in postgresql layer properties postgres 9.3, postgis 2.1.2), the test button shows always the total count of table rows and not the count of the query result. The shown result in the layer canvas will ever properly.
