QGIS Application - Bug report #14543
DB Manager Fails Silently

2016-03-21 08:49 AM - Kris Johnson

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	DB Manager			
Affected QGIS version:	2.14.0		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	not reproducable
Crashes QGIS or corrupts data:			**Copied to github as #:**	22516

Description

After executing a query and selecting "Load as new layer" I click "Load now!", and although a progress bar appears back on the main QGIS window nothing happens. In other words, no layer is added to the Layers panel or to the map. If there is a processing error this should inform the user of what is occurring rather than failing silently.
