

QGIS Application - Bug report #1455  
annoying popup on postgis connection

2008-12-12 05:22 PM - Jürgen Fischer

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	Jürgen Fischer	
<b>Category:</b>	GUI	
<b>Affected QGIS version:</b>		<b>Regression?:</b> No
<b>Operating System:</b>	All	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b> 11515
<b>Description</b>		
<p>quoting <a href="http://lists.osgeo.org/pipermail/qgis-developer/2008-December/005410.html">http://lists.osgeo.org/pipermail/qgis-developer/2008-December/005410.html</a>:</p> <p>qgis_unstable branch: when adding postgis layer, I always get a popup saying: "No accessible tables found".</p> <p>Despite the message, tables *are* found (are shown in the window for selection, is detected the contained geometry type and found all attributes).</p> <p>On 'Add', a second popup complains about a missing unique index, which is fine.</p> <p>When adding the missing unique index, everything works, no popup on 'Add', but still the initial "No accessible tables found" popup on connect is shown.</p> <p>No, no record in geometry_columns. But that annoying popup doesn't mention 'geometry_columns' at all, which would be nice if that's the problem.</p> <p>Beside, display of the table records work fine, so I wonder what justifies the initial scary popup.</p> <p>--strk;</p>		

Associated revisions

Revision 8d36542e - 2008-12-13 02:28 AM - Jürgen Fischer

- postgis table selection dialog:
- only ask for a password, when postgis needs one (fixes #1400)
  - don't complain about 'no accessible geometry tables', before checking for  
tables not listed in geometry\_columns (fixes #1455)
