QGIS Application - Bug report #1455
annoying popup on postgis connection

2008-12-12 05:22 PM - Jürgen Fischer

Status:	Closed			
Priority:	Low			
Assignee:	Jürgen Fischer			
Category:	GUI			
Affected QGIS version:			**Regression?:**	No
Operating System:	All		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	11515

Description

quoting http://lists.osgeo.org/pipermail/qgis-developer/2008-December/005410.html:

> qgis_unstable branch: when adding postgis layer,
> I always get a popup saying: "No accessible tables found".
>
> Despite the message, tables *are* found (are shown in the window
> for selection, is detected the contained geometry type and found
> all attributes).
>
> On 'Add', a second popup complains about a missing unique
> index, which is fine.
>
> When adding the missing unique index, everything works, no
> popup on 'Add', but still the initial "No accessible tables found"
> popup on connect is shown.
>
> No, no record in geometry_columns. But that annoying popup doesn't
> mention 'geometry_columns' at all, which would be nice if that's
> the problem.
>
> Beside, display of the table records work fine, so I wonder
> what justifies the initial scary popup.
>
> --strk;

Associated revisions

Revision 8d36542e - 2008-12-13 02:28 AM - Jürgen Fischer

postgis table selection dialog:

- only ask for a password, when postgis needs one (fixes #1400)

- don't complain about 'no accessible geometry tables', before checking for
  tables not listed in geometry_columns (fixes #1455)
