Affected QGIS version:	2.14.0		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	22525

Description

When working with rule based styling the *ELSE* rule is very useful.

In 2.14 (tested on windows and linux) this does not work, and when "testing" the filter it results in a syntax error.

Tested both for rule based styles and rule based labels.

History

#1 - 2016-03-23 10:20 AM - Klas Karlsson

- Status changed from Open to Closed

Seems to be an issue when the "test" button is used and not affecting the result of the filter.
