

QGIS Application - Feature request #14598
Atlas only displaying 499 Feature in Drop Down

2016-03-31 09:24 AM - Steven Oliver

Status:	Open	Resolution: Copied to github as #: 22566
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>In Atlas Mode, The dropdown menu only displays 499 features. You can use the arrows to move to the next feature, so I am pretty sure that the data is there, but the setting for the drop down was set to 499. Would like to know if their was a way to change that setting locally, or would it have to be coded. Desired length could be 100,000 since I deal with land parcels. attached_image</p>
