

QGIS Application - Bug report #1464

GRASS plugin: modules windows too small, cannot view/insert options

2008-12-15 04:59 AM - Giovanni Allegri

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Build/Install	
Affected QGIS version:	Regression?: No
Operating System: Linux	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 11524
Description	
Any module shows a too narrow options/inserting window. Resizing the window doesn't help. See attached screenshot	
QGIS 1.0.0preview2 compiled from svn tag	

History

#1 - 2008-12-15 08:50 AM - Marco Hugentobler

- Resolution set to fixed

- Status changed from Open to Closed

I suppose you are using a qt version < 4.4 ?

This issue has been fixed in trunk recently [/\(commit:fd63231a \(SVN r9786\)\)](#) to work also with 4.3 version.

Marco

Yes, I have QT 4.3.4 from Ubuntu repositories. I'll try to compile from trunk as the preview2 tag i built against revision 9776...

#3 - 2009-08-22 12:57 AM - Anonymous

Milestone Version 1.0.0 deleted
