### Description

When reading a text file with coordinates, QGIS doesn't complain about missing values in X/Y fields. Instead the values from the previous line are used.

Doing the same in 2.8.2 Wien I get the message "Errors in file C:/Daten/Qgis/xytab.txt 2 records discarded due to missing geometry definitions"

### Associated revisions

#### Revision 02e0e3f9 - 2016-04-13 07:42 AM - Nyal Dawson

Fix other feature's geometries are shown instead of null geometry in delimited text provider (fix #14666)

Add tests, also fix virtual layer, mssql and db2 providers which suffered the same bug

#### Revision 6880b53e - 2016-04-16 12:17 AM - Nyal Dawson

Fix other feature's geometries are shown instead of null geometry in delimited text provider (fix #14666)

Add tests, also fix virtual layer, mssql and db2 providers which suffered the same bug
