

QGIS Application - Bug report #14761

Inverted polygon does not appear in composer legend when filtered by map

2016-05-03 12:20 PM - Harrissou Santanna

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	3.2.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 22718
Description		
<p>I have a one feature layer I styled with Inverted polygon option > Single symbol</p> <p>Choose any symbol layer type. Apply.</p> <p>In the composer, I get the layer as expected in the map and the legend. If I filter the legend by map content, although the feature is still visible in the map (and the layer listed in the list of "legend items" property), no style is displayed in the legend on the map.</p>
