

QGIS Application - Bug report #14808

QGIS server GetProjectSettings not response ComposerPicture in Print Request and ComposerHTML

2016-05-12 06:27 AM - M Sylka

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Web Services clients/WMS	
Affected QGIS version:	2.14.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: end of life
Crashes QGIS or corrupts data:		Copied to github as #: 22764
Description		
In the Composer i have set a Composerpicture and also in Web Client i have set a request parameter logo=http://localhost/map/img/municipality.png but dont print in pdf map! when i get http://localhost/wms/municipality?&#38;SERVICE=WMS&#38;VERSION=1.3&#38;REQUEST=GetProjectSettings in composertemplate i get only: <pre><ComposerTemplates> <ComposerTemplate width="297" height="210" name="Formati A4 L"> <ComposerMap width="277" height="160" name="map0"/> <ComposerLabel name="munLabel"/> </ComposerTemplate> </ComposerTemplates></pre> not getin somthing like <ComposerPicture width="20" height="20" name="logo"/> In example of "Oeffentlicher WMS/WFS des Kantons Glarus" "https://map.geo.gl.ch/wms/Public?&SERVICE=WMS&VERSION=1.3&REQUEST=GetProjectSettings" they response composerPicture like this: <pre><ComposerTemplates> <ComposerTemplate width="297" height="210" name="A4 quer"> <ComposerMap width="280" height="170" name="map0"/> <ComposerLabel name="Benutzertext"/> <ComposerPicture width="20" height="20" name="qrcode"/> </ComposerTemplate> <ComposerTemplate width="210" height="297" name="A4 hoch"> <ComposerMap width="190" height="255" name="map0"/> <ComposerLabel name="Benutzertext"/> <ComposerPicture width="20" height="20" name="qrcode"/> </ComposerTemplate> <ComposerTemplate width="420" height="297" name="A3 quer"> <ComposerMap width="400" height="260" name="map0"/> <ComposerLabel name="Benutzertext"/> <ComposerPicture width="20" height="20" name="qrcode"/> </ComposerTemplate> <ComposerTemplate width="297" height="420" name="A3 hoch"> <ComposerMap width="277" height="380" name="map0"/> <ComposerLabel name="Benutzertext"/></pre>		

```
<ComposerPicture width="20" height="20" name="qrcode"/>
</ComposerTemplate>
</ComposerTemplates>
```

Also when add ComposerHTML get Internal Server Error.

End of life notice: QGIS 2.18 LTR

Source:

<http://blog.qgis.org/2019/03/09/end-of-life-notice-qgis-2-18-ltr/>

QGIS 3.4 has recently become our new Long Term Release (LTR) version. This is a major step in our history – a long term release version based on the massive updates, library upgrades and improvements that we carried out in the course of the 2.x to 3x upgrade cycle.

We strongly encourage all users who are currently using QGIS 2.18 LTR as their preferred QGIS release to migrate to QGIS 3.4. This new LTR version will receive regular bugfixes for at least one year. It also includes hundreds of new functions, usability improvements, bugfixes, and other goodies. See the relevant changelogs for a good sampling of all the new features that have gone into version 3.4

Most plugins have been either migrated or incorporated into the core QGIS code base.

We strongly discourage the continued use of QGIS 2.18 LTR as it is now officially unsupported, which means we'll not provide any bug fix releases for it.

You should also note that we intend to close all bug tickets referring to the now obsolete LTR version. Original reporters will receive a notification of the ticket closure and are encouraged to check whether the issue persists in the new LTR, **in which case they should reopen the ticket**.

If you would like to better understand the QGIS release roadmap, check out our roadmap page! It outlines the schedule for upcoming releases and will help you plan your deployment of QGIS into an operational environment.

The development of QGIS 3.4 LTR has been made possible by the work of hundreds of volunteers, by the investments of companies, professionals, and administrations, and by continuous donations and financial support from many of you. We sincerely thank you all and encourage you to collaborate and support the project even more, for the long term improvement and sustainability of the QGIS project.
