QGIS Application - Bug report #14810
Uncheck 'include Z dimension' in 'save vector layer as' doesn't work

2016-05-13 02:51 AM - Nicolas Boisteault

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Unknown			
Affected QGIS version:	2.14.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	22766	

Description

- load a 2.5D vector layer
- right click on it -> Save as
- select geometry type
- uncheck 'include z dimension'
- Click OK

The resulting layer still has z dimension.

You can test with attached file.

History

#1 - 2016-06-24 02:30 AM - Alexander Bruy

- Resolution set to fixed/implemented

- Status changed from Open to Closed

Fixed in master and 2.14.3. Please reopen if necessary

#2 - 2016-06-24 02:46 AM - Nicolas Boisteault

This issue still occurs in 2.14.3 64 bits on windows 7 64 bits.

Did you mean it is fixed in master and so it will fixed in 2.14.4?

#3 - 2016-06-24 02:52 AM - Alexander Bruy

I think yes. I can't reproduce it with lastest master and 2.14.3 (89a1f5b).

If possible, please test with nightly builds.
