Description

Hi
Coloring a raster from Singleband Grey to Singleband Pseudocolor.

First: If clicking OK - and I want to edit the result, the Mode /Classes are set back to initial Mode Continous and Classes Grayey out value 5.
Second: If you Choose a Colormap>New Color map >CPT-City you can´t edit the colorramp. All other Gradient, Random ect is editable.
Even in Settings>Style manager it is not possible to edit the saved Color ramp.
