<b>Description</b>		
<p>I think we could improve the UX for creating new colour ramps by:</p> <ul style="list-style-type: none"><li>- setting the default to cpt-city instead of the gradient</li><li>- renaming cpt-city (it is nice to pay tribute to the original creator of the set, but the name is not understandable for users)</li><li>- possibly removing other options (I think they are all included in cpt-city, e.g. ColorBrewer).</li></ul>
