When I try to sort the columns in the attribute table (by clicking on the column name), with commit: 7d7467f (qgis-rel-dev 2.14.3-7 OSGeo4W 64 bits), nothing happens, regardless of the field type.

Doing the same with commit: c260a77 (qgis 2.14.3-1) or commit: 78bcd4b (qgis-dev 2.15.0-74), the sorting works fine.

Tested with postgis and shapefiles datasources.
