

QGIS Application - Bug report #14936

Add python-future as a dependency

2016-06-01 02:18 AM - Paolo Cavallini

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Build/Install		
Affected QGIS version:	master	Regression?:	No
Operating System:		Easy fix?:	No
Pull Request or Patch supplied:	No	Resolution:	duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #:	22887
Description			
<p>It is now necessary. From Matthias Kuhn:</p> <p>python-future is a wrapper library that allows maintaining a single python codebase compatible with python2 and python3.</p> <p>Having this available in 2.14 is important so during the transition period to QGIS 3 plugin authors have the possibility to write plugins that work on the last LTR and work with 3.0 without being required to maintain two different codebases.</p>
