

## QGIS Application - Feature request #14957

### Snapping option "Avoid Intersection" should also prevent lines to overlap the checked poygon layer

2016-06-05 04:21 AM - Harrissou Santanna

<b>Status:</b> Open	
<b>Priority:</b> Normal

<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 22906
<b>Description</b>	
<p>When "avoid intersection" is active on a layer, you can't draw a new polygon feature (in any layer) to overlap features of the polygon. But it's still possible to draw line that overlaps these features.</p> <p>Would be nice to have line features also cut at the boundary of the polygone feature.</p>

I wonder if this should not be reported as a bug instead of a feature request
