

QGIS Application - Bug report #14993

Processing not compatible with QGIS 2.8 or 2.10

2016-06-10 02:35 AM - Gavin Fleming

| | | |
|--|-----------------|-------------------------------------|
| Status: | Rejected | |
| Priority: | Normal | |
| Assignee: | Victor Olaya | |
| Category: | Processing/Core | |
| Affected QGIS version: | 2.8.9 | Regression?: No |
| Operating System: | Ubuntu | Easy fix?: No |
| Pull Request or Patch supplied: | No | Resolution: invalid |
| Crashes QGIS or corrupts data: | No | Copied to github as #: 22940 |
| Description | | |
| <p>I have multiple versions of QGIS built on my Ubuntu xenial machine (2.8 through master)</p> <p>This plugin is incompatible with this version of QGIS Plugin designed for QGIS 2.12 - 2.99</p> <p>Surely all plugins (especially Processing) should not break with any version of 2?</p> | | |

History

#1 - 2016-06-10 03:32 AM - Alexander Bruy

- Resolution set to invalid
- OS version deleted (xenial)
- Operating System deleted (ubuntu)
- Status changed from Open to Rejected

Processing shipped with QGIS always compatible with this QGIS version. And now this is the only way to install it, as Processing not available from plugins repository anymore.
