

QGIS Application - Feature request #15030

Support of Geometries stored in MongoDB with OGR/GDAL > 2.1.0

2016-06-14 10:43 PM - Flo Ju

Status: Open	
Priority: Normal	
Assignee:	
Category: Unknown	
Pull Request or Patch Supplied:	Resolution:
Easy fix?: No	Copied to github as #: 22977
Description	
GDAL/OGR supports MongODB starting with V 2.1.0 (http://www.osgeo.org/node/1700).	
Native support of geometries stored in MongoDB would be nice in upcoming versions of QGIS with GDAL/OGR >= 2.1.0.

What do you mean exactly by "Native support of geometries stored in MongoDB" ? Having a MongoDB choice in the "Protocol" of "Add vector layer" dialog of QGIS to use the OGR MongoDB driver ?

#2 - 2016-06-15 01:58 AM - Flo Ju

Yes (without PlugIns) - using geometries with "Add vetctor data" (database protocol --> OGR ?) would be top. Integrating MongoDB in DBManager may be a further step - also to save geometries into MongoDB.
