Affected QGIS version:	master	**Regression?:**	No
Operating System:	all	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23037

Description

QGIS 2.16 has a new option to sort by column or expression directly in the form view. Previously, one had to switch to table view, sort by column and switch back. This works fine.

However, the sort setting is not preserverd. If one closes the form/table view and reopens it again, the sort setting is gone and it has to be reapplied.

I think it would be more useful, if this setting would be preserved and honored during the session and also stored in the project file.

History

#1 - 2016-06-26 03:20 AM - Matthias Kuhn

- Resolution set to fixed/implemented

- Status changed from Open to Closed

Fixed in commit:3661f92cc9d58f4dc40ad8dc5f8aefca5fa55558
