

QGIS Application - Bug report #15122

Map canvas gets stuck after doing pan on a null geometry feature

2016-06-23 12:58 PM - Tudor Bărăscu

Status: Closed	
Priority: Normal	
Assignee: Matthias Kuhn	
Category: Map Canvas	
Affected QGIS version: master	Regression?: No
Operating System: Debian Stretch	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 23063
Description	
<p>When running the "Pan map to the selected rows" tool on a row that has NULL geometry the canvas gets stuck to the extent. Using the pan tool is useless as the canvas is frozen in that position.</p> <p>You can unfreeze the canvas by clicking "Zoom to Extents" or "Zoom last tools".</p> <p>I've tested with QGIS 2.4.3 and Master on Debian Stretch, with Sqlite and Postgis as data sources.</p> <p>I'm attaching data to reproduce the problem.</p> <p>Steps to reproduce:</p> <ul style="list-style-type: none">- Open project- Open attribute table and select only the row with id 2 or name "No geometry"- Press the "Pan map to the selected rows"- Try to pan the map

tested in QGIS 2.14.3 (not 2.4.3.. typo). Can't seem to be able to update my original posting.

#2 - 2016-06-23 08:58 PM - dr -

Confirm. Faced with the same issue. Also you can freeze canvas by zooming out with mouse wheel.

#3 - 2016-06-26 02:13 AM - Matthias Kuhn
