

QGIS Application - Bug report #15228

style dock: values of raster's layer rendering options not properly restored

2016-07-06 07:47 PM - Mathieu Pellerin - nIRV

Status: Closed	
Priority: High	
Assignee: Martin Dobias	
Category: GUI	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 23165
Description	
Steps to reproduce:	
1. Create a new project	
2. Add a raster layer (1-band, 3-band, it doesn't matter)	
3. Open the style dock	
4. Change the brightness, saturation, and contrast layer rendering values (max out the sliders, it's easier to see)	
5. Switch to the transparency tab/panel	
6. Go back to symbology tab/panel, notice the layer rendering options' sliders are restored but spinbox values are set to 0
