<b>Description</b>		
<p>menu Options --&gt; Customization --&gt; Enable Customization</p> <p>Select the widget catcher and click on some tools in the GUI.</p> <p>Now cancel the dialog, or close it or uncheck "Enable Customization"</p> <p>The selected tools are still colored instead of getting back their original background.</p> <p>I think that closing the dialog should abort the customization process and thus the effects of the widget catcher.</p>
