QGIS Application - Bug report #15350
WMTS layers are not listed in Browser panel

2016-07-27 08:11 AM - Anita Graser

Status:	Closed		
Priority:	Severe/Regression		
Assignee:			
Category:	Browser		
Affected QGIS version:	2.16.0	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:		**Copied to github as #:**	23282

Description

According to #9492, WMTS layers should be listed in the browser panel, but I cannot get it to work, neither with the server listed in the ticket

http://maps.warwickshire.gov.uk/gs/gwc/service/wmts?service=WMTS

nor with a local one

http://www.basemap.at/wmts/1.0.0/WMTSCapabilities.xml

No layers are displayed in the browser, even though adding them through the Add WMS Layer dialog works just fine.

Hi Anita,

is the same issue as #14658 ?

#2 - 2016-07-27 09:53 AM - Anita Graser

I think that's a separate issue. There the WMTS layer cannot be added at all.

This issue is just about WMTS layers not being listed in the browser. I can add them using the toolbar/menu without problems.

Please reopen.
