QGIS Application - Feature request #15383
Transparency sliders so deeply buried

2016-08-03 01:34 AM - Dan Jacobson

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Symbology		
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Easy fix?:	No	**Copied to github as #:**	23313

Description

There should be a block stuck to the screen where all layers transparency sliders are immediately slideable,

LAYER A ---------^------------------------
LAYER B -----^----------------------------
LAYER C ---------------------^-----------
LAYER D --------------^------------------
LAYER E ------^---------------------------

Instead of having dig each one out of the menus, and then having to furthermore click Apply.
