QGIS Application - Bug report #15426
Map composer - to foreground something

2016-08-12 02:45 AM - Magdalena Blank

Status:	Closed			
Priority:	High			
Assignee:				
Category:	Map Composer/Printing			
Affected QGIS version:	2.16.1	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	23352	

Description

If I want to foreground a description/text field in the map composer, I can do it once without any problems. If I repeat this for a second description/text field, QGis shows a Minidump and crashes. After I reopen the project and the map composer, I can continue with foregrounding the second description field.
