

QGIS Application - Bug report #15434

Measure tools: total is in kilometers although user selects meters

2016-08-14 08:57 PM - Harrissou Santanna

Status: Closed	
Priority: Normal	
Assignee:	
Category: Map Tools	
Affected QGIS version: 2.16.1	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 23360
Description	
If user selects meters, there should be no reason to display the total in kilometers (same thing for feet/yards/miles). There's enough space in the text box to display such values so why not?

Keep base units as default behavior (fix #15434)

Revision dfff9dd3 - 2016-08-23 11:53 PM - Nyal Dawson

Merge pull request #3404 from DelazJ/patch-13

Keep base units as default behavior (fix #15434)

History

#1 - 2016-08-14 09:59 PM - Harrissou Santanna

Found that there's a "keep base unit" checkbox in general settings to select whether units should be kept. I wonder if by default, it should not be kept, and up to the user to select conversion.

#2 - 2016-08-15 01:55 AM - Nyal Dawson

Agreed

#3 - 2016-08-23 02:53 PM - Nyal Dawson

- Status changed from Open to Closed

Fixed in changeset commit:"dfff9dd3ca792278606dd5daa89119f7dce937e6".
