QGIS Application - Bug report #1544
raster visualisation

2009-02-16 08:22 AM - lucagis -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	GRASS			
Affected QGIS version:		**Regression?:**	No	
Operating System:	Linux	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	invalid	
Crashes QGIS or corrupts data:		**Copied to github as #:**	11604	

Description

qgis 1.0 on ubuntu 8.10 intrepid ibex don't recognise raster maps with this reponse:

home/luca/grass_data//mva/pft/cellhd/pft_orig non è una sorgente di dati raster valida o riconosciuta

Please start qgis in English locale (eg. via 'qgis --lang=en' on the command line) and post the English translation of the error.

Can you load other GRASS rasters? How to reproduce the error?

#2 - 2009-03-16 04:58 AM - Paolo Cavallini

- Resolution set to invalid

- Status changed from Open to Closed

Please use the GRASS plugin to load GRASS raster

#3 - 2009-03-16 10:24 AM - Maciej Sieczka -

That's not the point. QGIS is (and should be) able to load GRASS data accessing them directly.

I believe lucagis problem is that he doesn't have gdal-grass plugin installed, thus QGIS fails to recognize the format.
