**Description**

The tooltip message on the Coordinates box in the bottom status bar is wrong - better rephrase it. It would seem appropriate also to add the measure units (m, degrees, etc.) to it.

## History

Hi Paolo, what is wrong with it? Any suggestions how we should rephrase it?

- *Status changed from Feedback to Open*

It says `lat,lon or east,north`, whereas it is `lon,lat or east,north`, or possibly better just `lon,lat`.
It would be better to add the unit of measure (degrees, meters, ...

- *Easy fix? changed from No to Yes*

**#6 - 2017-11-01 09:50 PM - Tristram Gräbener**

Hello,

I looked into as it seems a very easy fix.
Alas, it was already fixed in commit:3059dd548073c0dd2816058f262f231529a21fbc

However the improvement to add the units seems still at my reach. Do you think I should try to do that?

*- Status changed from Open to Closed*

*- Resolution set to worksforme*

The label is now OK. Adding units would be nice, but is certainly not important.

Feel free to reopen if you think it is.
