

QGIS Application - Feature request #15523

[Processing] GDAL advanced options in batch mode

2016-09-02 05:47 AM - stefano campus

Status: Closed	
Priority: Normal	
Assignee: Victor Olaya	
Category: Processing/GDAL	
Pull Request or Patch Supplied:	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 23447
Description	
<p>all gdal modules have the possibility to add some advanced options. this possibility is allowed using the command, but it's not possible in batch mode.</p> <p>it would be a very useful possibility to add these advanced options also in batch mode windows especially dedicated to users that are not skilled for using gdal commands in shell mode</p>
