QGIS Application - Bug report #15540 Coordinate Status Bar wrong

2016-09-07 05:57 AM - Tobias Hurtienne

Status: Closed Priority: Normal

Assignee:

Category: Unknown Affected QGIS version:2.14.5

Affected QGIS version: 2.14.5

Operating System:

Pull Request or Patch shapplied:

Regression:

No
Resolution:

invalid

Crashes QGIS or corru**pts** data:

Copied to github as #: 23463

Description

In the status bar, the coordinates are only in WGS84 Sytem displayed... Thats new, but bad! Is there a opportunity to change it in QGIS?

As I and maybe others have no clue what your problem is, please consider using the qgis-user mailing list and try to explain it there a bit more detailed.

#2 - 2016-09-07 12:30 PM - Harrissou Santanna

Tobias, see Project Properties --> General --> Coordinate Display (

http://docs.ggis.org/testing/en/docs/user_manual/introduction/ggis_configuration.html#project-properties)

So, not sure this is a valid bug report...
