QGIS Application - Bug report #15564
Change default value in Vector | Research Tools | Grid | Parameters

2016-09-13 03:22 PM - Johanna Botman

Status:	Rejected			
Priority:	Normal			
Assignee:				
Category:	Forms			
Affected QGIS version:	2.16.2		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	wontfix
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	23487

Description

The default value in this parameter is 0.0001. When the CRS is in UTM, that means a 1mm grid. Can that be changed to something more sensible so that new users are aware of why QGIS takes all day to process that request?

History

#1 - 2016-09-15 01:15 AM - Alexander Bruy

- Resolution set to wontfix

- Status changed from Open to Rejected

In WGS84 this is reasonable value (from 5 to 11 meters). User should know in which CRS his data is which distance units correspond to this CRS.
