

QGIS Application - Bug report #156

saved QGIS-project does not recognize WMS

2006-06-22 02:30 AM - holl-gdf-hannover-de -

Status: Closed	
Priority: Low	
Assignee: Brendan Morley -	
Category: Web Services clients/WMS	
Affected QGIS version:	Regression?: No
Operating System: Debian	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 10215

Description

Dear Devs,

saving a qgs.-project with WMS-layers inside cannot be opened again. The WMS-layers are not found anymore.

The project looks like this:

[...]

```
<maplayer minScale="0" maxScale="1e+08" scaleBasedVisibilityFlag="0" visible="1" type="raster" showInOverviewFlag="0" >
  <id>NASA_Oneearth20060622112202271</id>
  <datasource>http://wms.jpl.nasa.gov/wms.cgi?&lt;/datasource>
  <layername>NASA Oneearth</layername>
  <coordinatetransform>
```

[...]

Is it possible to resume to a project with WMS-layers enabled?

cheers

Stephan
