Description

A shortcut to switch between layer visibility presets (Crtl+Tab?) would be really helpful.

Hi Nyall, it seems that 'layer groups' was the former name for presets (see 'Manage Layer Visibility' icon). So this feature request is a duplicate.

#3 - 2017-04-10 08:41 AM - Harrissou Santanna

Hi,
I'm not really sure you both are refering to the same tool/option so, not a duplicate (just related as they both are in Layers panel)
