

QGIS Application - Feature request #15781

Double the amount of storable colors in the custom color picker

2016-10-29 10:52 AM - JW van Aalst

Status:	Closed	Resolution: wontfix Copied to github as #: 23702
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>In my cartographic work, I work with 30 to 40 specific colors across several QGIS projects. However, the custom color palette only allows for 16 storable colors. This is a hindrance. How difficult would it be to double the amount of storable colors?</p>

Do you realise you can create your own color palettes from within the color picker dialog? This would be a better approach over using the custom color buttons, as you can create as many palettes (with as many colours) as you want, name the palettes and the colours, import/export palettes,... Etc.

Absolutely fabulous. I had not yet discovered that feature. Thank you. As far as I'm concerned, this feature request may be closed.
