

QGIS Application - Bug report #15848

wrong German translations in processing GRASS modules

2016-11-15 12:16 AM - Andre Joost

Status:	Closed	
Priority:	Normal	
Assignee:	QGIS Translation Team	
Category:	Translations and international	
Affected QGIS version:	2.18.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed/implemented
Crashes QGIS or corrupts data:		Copied to github as #: 23766
Description		
<p>According to the help menu, v.build.polylines "Builds polylines from lines or boundaries".</p> <p>In the toolbox, the German translation reads "Polygone aus Linien oder Umgrenzungen bilden", which promises something different.</p> <p>As a sidenote, v.to.lines is described as "Vektorpolygone oder -pnkte in Linien umwandeln" (u in punkte is missing).</p> <p>Both errors have influence on the search box of the processing toolbox.</p>
