Affected QGIS version:2.18.0Regression?:NoOperating System:UBUNTU 16.04Easy fix?:No

Pull Request or Patch shapplied: Resolution: not reproducable

Crashes QGIS or corruptesdata: Copied to github as #: 23784

Description

Dear forum

I have to handle a big point vector file.

To be more precise I would like to select all the points with attribute NULL in the only column I have (it works) and then deleting. QGIS try to carry out the operation but at the end it crashes.

I can't attach the file because is 40 Mb

Thank you very much

History

#1 - 2016-11-21 10:52 AM - Giovanni Manghi

- Target version deleted (Version 2.18)
- Priority changed from Normal to High
- Status changed from Open to Feedback

Please attach your data by other mean: dropbox, google drive, etc. Thanks!

#2 - 2016-12-28 08:15 AM - Giovanni Manghi

- Resolution set to not reproducable
- Status changed from Feedback to Closed

Closing for lack of feedback, please reopen if necessary.
