Description		
Hi,		
	new plugin, upload fine but when I've go etadata.txt, but already this field exists in	ne to URL plugin in http://plugins.qgis.org/plugins/ and it said that the about the metadata.txt.
The only way for re	solve this issue was added the "about" se	ection editing inside the plugin.qgis web.
I attached the meta	adata.txt of my plugin with this issue.	
Thanks

Can you please attach the zip package that you are trying to upload?

Would you be so kind to also add a link to the plugin page and reveal the name of the plugin?

Also, there are different ways to upload a plugin on the repository, can you please describe step-by-step the procedure to reproduce the issue?

Hi Alessandro,

 $Of course, the {\it zip plugin: } {\it https://drive.google.com/file/d/0B2KQf7Dbx7DUUWRWQlRYZ0MzeGc/view?} usp=drivesdking {\it visual confidence of the plugin: } {\it https://drive.google.com/file/d/0B2KQf7Dbx7DUUWRWQlRYZ0MzeGc/view?} usp=drivesdking {\it visual confidence of the plugin: } {\it https://drive.google.com/file/d/0B2KQf7Dbx7DUUWRWQlRYZ0MzeGc/view?} usp=drivesdking {\it visual confidence of the plugin: } {\it https://drive.google.com/file/d/0B2KQf7Dbx7DUUWRWQlRYZ0MzeGc/view?} usp=drivesdking {\it visual confidence of the plugin: } {\it https://drive.google.com/file/d/0B2KQf7Dbx7DUUWRWQlRYZ0MzeGc/view} usp=drivesdking {\it visual confidence of the plugin: } {\it visual confidence$

The plugin is: http://plugins.qgis.org/plugins/CloudMasking/

For upload the plugin I used the tool called plugin_upload.py this come from the plugin builder http://plugins.qgis.org/plugins/pluginbuilder/
step-by-step: 1. Build a new plugin (that not exists in plugin qgis web) 2. Upload it with plugin_upload.py 3. Go to plugin web and it said that about section is not in metadata.txt file (but the metadata.txt already have about section)

You can not upload the same version twice.
(I agree that the error message could be better).

Yes I agree with you, but this is other error, my error report is when you add a new plugin the about field is not detect, but I don't test with other plugin test, it may be an isolated case.
