

QGIS Application - Bug report #15945

Styling dock: label tab does not get refreshed when changing layer style

2016-12-07 01:39 AM - Denis Rouzaud

Status: Closed	
Priority: Severe/Regression	
Assignee: Nathan Woodrow	
Category: GUI	
Affected QGIS version: 2.18.0	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: not reproducible
Crashes QGIS or corrupts data:	Copied to github as #: 23861
Description	
<p>- Open style dock - Label tab (did not test others) - Switch layer style => dock is not refreshed with new style (need to switch to another tab and go back to label)</p> <p>Probably on master too</p>	

History

#1 - 2016-12-07 01:46 AM - Denis Rouzaud

- Priority changed from Normal to Severe/Regression

Making it severe since it might erase some configuration!

#2 - 2016-12-07 01:51 AM - Mathieu Pellerin - nIRV

Denis,

Can you give more detailed steps to reproduce? I can't reproduce with what's above, yet I'm pretty sure I ran into a similar issue not too long ago.

#3 - 2016-12-07 01:59 AM - Denis Rouzaud

- Use a vector layer
 - Enable labeling and define it
 - Create a second style "huge style"
 - For that new style, modify a parameter, let's say a huge font size
 - With the styling dock open at the label tab, switch back to layer default style
- => You still have the "huge style" parameters displayed in the dock.

While you look at it, if you can tackle #15947 that would be awesome!!!

Thanks for looking at this!

following this steps on 2.18.4 i can't replicate the issue. Can you check? thanks!
