

# QGIS Application - Feature request #15971

## Field Calculator - Remain open after update

2016-12-11 08:29 PM - Martin Bain

<b>Status:</b> Open	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Unknown	
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b>
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 23887
<b>Description</b>	
<p>When adding new data I frequently update two or more columns with the Field Calculator.</p> <p>Clicking OK to perform the update also closes the dialog box and you need to reopen to perform another calculation.</p> <p>Would it be possible for the dialog to remain open after performing an update? Maybe have an "Apply" button or a Checkable option to remain open after update.</p> <p>Thank you.</p>
